## CHRYSANTHEMUM NOVELTIES

For 1906.

Disseminated by *Nathan Smith & Son*  
(Originator's Descriptions.)

**October Frost** (Opah x Monrovia)—Exhibited as 11-27-04. We have in this a decided improvement on any existing commercial white, inasmuch as it combines size with earliness, being six and one-half inches in diameter, and first blooms were fully developed Oct. 7th. Its color is pure white with creamy center; substance is excellent. It seldom exceeds three and one-half feet in height, and when crown bud is taken (best bud Aug. 25th,) it averages  $2\frac{1}{2}$  to 3 ft. in height. C. S. A. Certificate.

50c each; \$5.00 per doz.; \$35.00 per 100.

**Rosiere** (Opah x Mrs. Coombes)—The immense blooms, seven and one-half to eight inches in diameter, are very similar to Viviani Morel in form, but deeper and more double. In color, it is a deep rose pink, never fading, a characteristic fault of most early pinks. It has the heavy foliage and dwarf habit of Mrs. Coombes. If early bud is taken (Crown bud Aug. 20th to 25th is best) it will not exceed two and one-half feet in height and many plants but 2 feet with foliage to the ground. It is unexcelled as a shipper, being of excellent substance. The blooms are ready to cut Oct. 10th, a time when a good pink is scarce.

40c each; \$4.00 per doz.; \$25.00 per 100.

**Crocus** (Monrovia x Mrs. Harry Emerton)—Another commercial variety of special merit, having all the characteristics to make it such; strong wiry stem, well supplied with healthy foliage close to the flower, which is of excellent substance and a good shipper. It is also of easy culture and a free propagator. The blooms are of large size and beautiful Bonaffon yellow color. Take either bud, but crown Sept. 1st. to 5th gives best results. Height four feet. C. S. A. Certificate, scoring ninety-two points commercial scale. At its best Oct. 25th.

50c each; \$5.00 per doz.; \$35.00 per 100.

**Janona** (Iolantha x Sarah Bernhardt)—An immense Japanese bloom, flowering at a time when large blooms are scarce. It is exceeding-

ly artistic in build, being irregularly incurved, but not too close to detract from its graceful outline. In color it is pure white, with center petals slightly tinted rose, enhancing its beauty. An important feature is its dwarf sturdy growth, rarely exceeding three feet in height and ample foliage to cover the stiff stems. with ordinary culture the blooms will attain a diameter of eight inches. It will be especially valuable for early exhibitions, being in perfection Oct. 20th to 25th. C. S. A. Certificate, scoring ninety-four points commercial and ninety-five points exhibition scale.

50c each; \$5.00 per doz.; \$35.00 per 100.

**Adrea** (Mme. F. Perrin x A. J. Balfour)—Exhibited as 34-13-03. As the parents of this variety are so well known as ideals of their color, we can add very little to its description. A loosely incurved Japanese of large size, on strong stem with small commercial, Perrin foliage. In color it is purest clear pink, with beautiful lighter, reverse. Best bud is crown taken Aug. 30th to Sept. 5th. At its best Nov. 1st to 5th. C. S. A. Certificate, scoring ninety points commercial scale.

50c each; \$5.00 per doz.; \$35.00 per 100.

**Pres. Roosevelt** (Mrs. W. C. Egan x Mrs. Geo. Mileham)—We consider it our best introduction since the year 1898, when we disseminated that grandest of all American bred Chrysanthemums, Merza. It is its equal in size, of the same sturdy short jointed growth and beautiful, being white ground, with light shell pink center and on tips of each petal, giving the entire bloom a light pink appearance and is especially attractive under artificial light. Unlike Merza it is of the easiest culture and perfectly double from all buds and under various culture. As a cut flower, either commercial, exhibition, or pot plant, it has few equals and will be grown in quantity. Fully developed Nov. 5th to 10th, and crown buds taken Aug. 30th to Sept. 5th, will produce the best colored blooms. C. S. A. Certificate. Silver N. Medal at Philadelphia and winner in class "Best American Seedling."

50c each; \$5.00 per doz.; \$35.00 per 100.

**Mayor Weaver** (Mme. F. Perrin x A. J. Balfour)—Another Perrin seedling and an improvement both in color and size. It is perfectly double from either bud, but larger and better flowers are produced from crown taken Aug. 30th to Sept. 5th. It easily attains a diameter of seven inches and height of four to four and one-half feet. Stiff Perrin stem well clothed with heavy foliage to the flower, which is a loose Japanese incurved of a bright rose pink color with glistening lighter reverse. Mid-season, Nov. 1st to 5th. Certificate Horticultural Society of Chicago.

50c each; \$5.00 per doz.; \$35.00 per 100.

**Tioga** (Mrs. Elmer D. Smith x Merza)—In color it is a delicate creamy white, darker at the tips. The stiff stem is covered with an abundance of foliage close to the flower. Take either bud, but best from late crown about Sept. 10th. It possesses exceptional keeping qualities and will rival the best as a commercial or exhibition variety, either in pots or single stem cut bloom. Early midseason, Oct. 25th. to Nov. 1st.

50c each; \$5.00 per doz.; \$35.00 per 100.

**Venetta** (Mrs. J. J. Mitchell x Mrs. Tranter)—Exhibited as 36-1-03. Briefly described as a double Mrs. Jerome Jones. Closely incurving Japanese of large size, pure white body with

creamy center. It possesses excellent substance, showing a glossy finish on petals. Exceptional strong grower, never exceeding four feet in height, and its heavy stiff stem is furnished with an abundance of foliage to the flower. Double from either bud. In perfection Nov. 15th to 25th. C. S. A. Certificate, scoring ninety points.  
50c each; \$5.00 per doz.; \$35.00 per 100.

**"BABY RAMBLER."**

(Mad. Norbert Levavasseur.)

The tremendous hit made by "Baby Rambler" the past year, makes it imperative that every florist have a supply on hand.

Its strictly dwarf and bushy form coupled with its unbounded blooming energy, cannot fail to introduce it into every door-yard and garden where Roses are planted.

As a house Rose, all that need be urged to customers is its unique and simple pot-growth, and its never ceasing bloom. Every body knows, and admires the crimson color of its climbing parent, and Baby Rambler is just as vivid.

Pot specimens will, also, be found especially useful and popular for decorating purpose.

We have a splendid stock for this season, and offer three sizes as follows:

2½ inch pots	\$7.00 per 100
3 inch pots	\$12.00 per 100

Strong 2 year old Field Grown plants, \$25.00 per 100.

The latter will give best results for Easter sales, as they may be easily brought in bloom, and will make easy sellers.

**NEW RED FORCING ROSE**

**"Richmond" (Hill.)**

Of strong, rapid growth, showing a disposition to grow all the time—in midwinter at its very best when many Roses of the Hybrid Tea line are inclined to go to sleep. Produces high class bloom with nicely pointed bud, of a bright, glowing crimson scarlet shade that is slow to fade or turn purple. May be brought into perfect form without special treatment, growing nicely along with Bride and Bridesmaid. Was awarded silver cup at World's Fair (St. Louis) for best seedling Rose and special silver cup at Chicago show. Own Root Stock. \$10.00 per 100; Grafted Stock \$12.00 per 100.

**GEN MACARTHUR**

**The Best Red Rose of All.**

Since our introduction of this matchless Rose—in 1903—its sales have had a steady growth.

The first year, a few prominent Rose growers planted it as an experiment,— and liked it.

Today, there are scores of florists throughout the country who have benched it in quantity, and are pushing it as a superior Cut-flower Rose.

The thousands of customers reached by our retail trade, like it for its incomparable color,— a peculiarly rich shade of crimson-scarlet—; its charming buds, and exquisite fragrance.

All who have thoroughly tested its qualities, have proved it beyond a question to be one of the very best red Roses grown; a red that is brighter than either Liberty or Meteor, and does not fade.

MacArthur grows as easily as any good Rose on the market, (preferring a night temperature of 53° to 56°) and furnishes an unusually large amount of bloom which, if cut tight, will keep for a long period. 2½ inch pots, \$6.00 per 100. Grafted Stock from 3 inch pots, \$12.00 per 100.

**GENERAL COLLECTION OF EVER-BLOOMING ROSES.**

**Bridesmaid**—We have a large lot of late fall struck cuttings that will make fine plants for early planting. No better money maker in Rose family.

**Clotilde Soupert**—A grand little Rose for bedding or pot sales. Used largely for cemetery planting. Flowers delicately tinted flesh white. One of the most persistent bloomers and strongest growing of the Polyantha class.

**Climbing C. Soupert**—Flowers same form and shading as its parent with good rapid climbing habit. Good garden and pillar Rose, and treated in same manner as Crimson Rambler, makes beautiful display when forced in pots, for which use we anticipate a growing demand.

**Etoile de Lyon**—Flower rich golden yellow, nicely shaped in bud or flower and one of the most hardy of Teas.

**Golden Gate**—A perfect forcing Rose, good at any season of the year. One of the easiest to manage. Buds long and pointed, opening out into a splendidly formed flower of creamy white, delicately tinged golden yellow and rose.

**Hermosa**—Grown by the thousand for Decoration Day sales. No better pink Rose for pot culture.

**Intensity (New)**—A rare Hybrid Tea introduced by us last year, that has many superior qualities. It is a cross between the grand, dark Gruss an Teplitz and our own bright MacArthur. Its color is intense crimson, scarlet, approaching crimson-maroon in the older flowers. Its habit of growth makes it one of the finest Bush Roses for outdoor planting, being very free and vigorous and, at the same time, keeping well bushed and shapely. Is free-blooming, nicely double, with a strong Tea fragrance; leaving nothing to be desired in a first grade bedding Rose. \$10.00 per 100.

**Ivory (White Golden Gate)**—Has met with great success as a forcing Rose; is taken as a standard Rose in all cut-flower markets. Handled as easily in all seasons as the old type.

**Mamam Cochet**—No pink Rose has made as many friends as a summer Rose as Mamam Cochet. Its buds are beautifully pointed and of an exquisite shade of deep pink.

**Mad. Petite Andree (Red Soupert)**—A strong growing compact little plant. Flowers full and double, brilliant crimson. A good companion for the tribe of Souperts and one of the best Polyanthas. \$4.00 per 100.

**Meteor**—One of our best dark red Roses, grand when nicely grown. Stock of this very good.

**Mme. Derepas Matrat** (Yellow Cochet)—Flowers large sulphury yellow; a good companion for the White and Pink Cochets. \$4.00 per 100.

**Olivia** (New)—One of the best deep rose-colored Hybrid Tea Roses grown; a seedling of Balduin (Helen Gould) and Gen. McArthur. Color and shape of flower resemble Balduin, while its strong growing, free-blooming qualities favor MacArthur. Buds nicely pointed—like La France—and flower very double; strong Tea fragrance. A splendid bedding and cut flower Rose. \$10.00 per 100.

**Queen's Scarlet**—Still one of the best Roses for bedding and market plants. Nothing more showy than a bed of this with its brilliant red flowers. One of the hardiest everblooming Roses.

**White Mamam Cochet**—One of the best white bedding Roses, similar in every respect but color to Mamam Cochet and may be grown and flowered just as easily. Flowers good sized and the purest white.
